

Craig Hilburn MTA Education Award 2023

It takes unique skills to teach and be interactive with kids. Now add to that skill to be able to step back and step down to the level or age of pupils that are all ears. Craig Hilburn is a man with passion for youth education. He has the gift to educate kids through hands on activities. Creative is a word that comes to mind.

Over the years, Craig has provided field training to a handful of kids. He has given many hours of presenting Beginner Trappers Connection demos. Always saying yes and never troubled by the topics tasked, and wanting to do more. He among others are creating a new and lively BTC program which is copied by others. Pelt Day in is garage has become an annual activity. Giving of his space, time, monies and more are going beyond a great volunteer. Him spearheading the Pelt Day opportunities has made a positive impact on our continuing education efforts.

Youth Trapper Education, Beginner Trapping Connection and Pelt Day says it all. With appreciation I want to present, Craig Hilburn with the 2023 MTA Education Award.

Sincerely MTA President Brian Fischer
