

Cumberland Trapping Supply, 2023 Presidential Award

Cumberland Trapping Supply has been around for a long time. Serving you, me and many other trappers throughout the state and outside our states border. It remains a three generation, family-owned business. In 2023 they have printed their 58 addition of their trapping catalog. Our friend Russ had retired 5 years ago and now the company is run by sons, Jade and Jeremy but probably held together by their wives, Lori and Jennifer. It doesn't stop there for in various ways the next generation has lend a helping hand at shows or in the store when available. Also to note the staff and workers that help with the day to day business.

I have won many gift cards, traps, lures and other stuff all through donation generously given to fundraisers or trapping programs. For the nine years they have now been strong supporters of the Beginner Trapper Connection. The business names constantly is listed in programs, shows and event around the state.

I am happy to announce that Cumberland's Trapping Supply will be awarded a 2023 Presidential Organization Award. Thank you, Cumberland family, staff and workers for being active with the MTA.

Respectfully submitted by Brian Fischer, MTA President
